

How useful is \LaTeX ?
Well, it made this presentation!

Will Anderson - Barrel

May 17, 2018

Pretend I could come up with a name.

Hey, you rememebr that CSV I was showing off earlier? Sure, it might not fit on the page but it works in here because it's simply beamer using \LaTeX as a backend.

Keyboard	Switch
Happy Hacking Keyboard Professional 2 Type-S JP	Topre
Ducky One	Cherry MX Blue
G80-1800	Cherry MX Black
DZ60	Gateron Black
Steelseries 6GV2	Cherry MX Black
GH60	Cherry MX Black
Corsair K95 RGB Platinum	Cherry MX Blue
Corsair K95 RGB Platinum	Cherry MX Brown
Corsair K95 RGB	Cherry MX Red
Pok3r	MX Clear
Coolermaster Masterkeys Pro M	MX Green
Dell AT102W	ALPS SKCM Black
IBM Model M	Membrane Bucklin

Yeah, these are pretty useful for showing stuff off to co-workers, since it compiles to PDF You won't ever have issues with people not being able to view it.

- This
- Is
- An
- Unordered
- List

Everything that you could do normally in \LaTeX Can be done here, the only thing you really need to worry about is size constraints.
